

Crete Rail™

Concrete Edging

When Traditional Plastic Edging Just Won't Do!

CRETE-RAIL™

A strong yet flexible concrete edging. It has a fast set time and it's easy to use, just add water and mix. The polymer-modified formula and fiber reinforcement add maximum strength while allowing for flexibility to withstand freeze/thaw fluctuation.

Applications:

- ▶ Paver, natural stone & wetcast
- ▶ Open graded base & permeable paver installations
- ▶ Driveways, walkways & patios
- ▶ Projects that include HexaBase™

Benefits:

- ▶ Fiber reinforced for maximum strength
- ▶ Fast set time
- ▶ Ridged yet flexible support
- ▶ Polymer-modified for flexibility to withstand freeze/thaw
- ▶ Easy to use – just add water & mix

One 50 lb. bag covers 13 - 17 linear feet. Variation will depend on application and type of subsurface material.
