

SILVER ELITE

SRW Spunbond polypropylene geotextiles are commercial grade landscape fabrics with high puncture and tear resistance. Spunbond geotextiles allow high water flow and excellent permittivity. Professional landscapers consider Silver Elite to be a favorite due to its strength and versatility.

- ▶ Use for general landscaping such as gardens and planters
- ▶ High water flow makes it great for french drains/drainfields
- ▶ Easy to cut, and tear resistant
- ▶ Use behind retaining walls
- ▶ General weed control

Silver Elite • 20 Year • Spunbond
